AMERICAN ROULETTE

Players can wager on either a single number or a range of numbers, on the red or black, or on odd or even. To determine the winning number and color, a croupier spins the Roulette wheel and rolls a ball in the opposite direction.

The ball eventually falls into one of 38 numbered and colored pockets on the wheel

INSIDE AND OUTSIDE BETS

Straight Up: Place a bet on the line between any two numbers.

Street Bet: Place a bet at the end of any row of numbers, covering three numbers.

Corner Bet: Place a bet on the corner where four numbers meet.

Line Bet: Place a bet at the end of two streets on the line dividing them.

A line bet covers all the numbers in either street, for a total of six.

Dozen Bet: Place a bet in one of the boxes marked "1st12", "2nd12", or "3rd12", each of which covers twelve numbers.

Column Bet: On the short side of the roulette table are three boxes marked "2 to 1". By placing a chip in one of these boxes, the player selects all twelve numbers above it (excluding 0).

1-18 / 19-36 (High/Low): A bet placed in one of the boxes marked "1 to 18" or "19 to 36", covers 18 numbers.

Red/Black or Even/Odd: A bet placed in one of the four boxes, on the sides of the board, covers half of the numbers on the board, as described in that box.

The zero is not covered by any of these boxes. Each box covers eighteen numbers.

Trio: a bet on 0, 1 and 2; or 0, 2, and 3. The chip is placed at the intersection of the three desired numbers.

Top line: a bet on 0, 00 , 1, 2, and 3. The chip is placed at the corner of 0 and 1.
